Hydrogen-rich water 600G

5-stage filtration

UV sterilization

Child lock protection

Large Flow

Automatic water cut

Reduce noise

WHY DRINK HYDROGEN-RICH WATER?

Rich in active hydrogen, promote the internal balance of the body,
Belongs to negative electricity water level
Has a certain antioxidant function

70% to 80% of the immune system is located in the intestine. Stress, poor diet and pesticides weaken your intestinal function by nearly 20%. The electric potential in EchoH2 water repairs beans and restores the intestines, improving food intolerance.

Need extra energy? Don't drink coffee, try hydrogen water, hydrogen water signals your cells to produce more natural energy (ATP) and protect your oxidatively stressed cells, which may damage cells and reduce energy levels

Improve skin

Strengthen immunity

prevent disease

COMPOSITE FILTER DESIGN

Integrated waterway structure

CONTROL PANEL

Beautiful design, clearly visible panel

RO REVERSE OSMOSIS MEMBRANE

0.0001 μM

Scale

Microorganism

HYDROGEN-RICH WATER MACHINE

UV STERILIZATION

Effective sterilization, safe and reliable without pollution

Combination of sterilization and disinfection, drink healthy water with peace of mind

PRODUCT PARAMETERS

Product Name : Hydrogen water machine

Product Size : 425*210*505mm

Filtration Accuracy : 0.0001um

Purified Water Flow : 1.56L / min

Applicable Water Pressure : 0.1-0.4MPa

Applicable Water Source : Municipal tap water
